

FUNGICIDAL PERFORMANCE:

Trichophyton mentagrophytes
Aspergillus niger

FUNGICIDAL ACTIVITY: At 2 ounces of Enviroguard 64 per (one) (1) gallon of water use-level (or equivalent use dilution) (703 ppm active), this product is effective against *Trichophyton mentagrophytes* (athlete's foot fungus) (a cause of Ringworm) (a cause of Ringworm of the foot) and *Aspergillus niger* on hard nonporous (inanimate) (environmental) surfaces in locker rooms, dressing rooms, shower and bath areas and exercise facilities. Apply by cloth, sponge, mop, brush, auto scrubber or mechanical spray device ((hand pump) coarse pump or trigger spray device). For spray applications, spray 6-8 inches from surface. Do not breathe spray. Saturate surfaces with use solution. Treated surfaces must remain wet for a period of 10 minutes. Allow solution to dry on surface and repeat treatment every seven days or when new growth appears. Change cloth, sponge or towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily or when use solution becomes visibly soiled.

MOLD AND MILDEW CONTROL: To control the growth of mold and mildew and their odors on hard, non-porous (inanimate) (environmental) surfaces, apply use solution of 2 ounces of Enviroguard 64 per (one) (1) gallon of water (or equivalent use dilution) (703 ppm active). Apply by cloth, sponge, mop, brush, auto scrubber or mechanical spray device ((hand pump) coarse pump or trigger spray device) to thoroughly wet all treated surfaces completely. Allow surface to remain wet for ten (10) minutes. Allow solution to dry on surface and repeat treatment every seven days or when new growth appears. Change cloth, sponge or towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily or when use solution becomes visibly soiled.

FOR DISINFECTION AND TO CONTROL THE GROWTH OF MOLD AND MILDEW ON NON-POROUS ATHLETIC EQUIPMENT: For use on wrestling and gymnastic mats, athletic mats, exercise equipment, athletic training tables, physical therapy tables, athletic helmets, wrestling/boxing headgear, athletic shoe soles, and other hard nonporous (inanimate) (environmental) surfaces. Saturate (nonporous (inanimate) (environmental)) surfaces with a use solution of 2 ounces of this product per (one) (1) gallon of water (703 ppm active) (or equivalent dilution). Apply by cloth, sponge, mop, brush, auto scrubber or mechanical spray device ((hand pump) coarse pump or trigger spray device). For spray applications, spray 6-8 inches from surface. Do not breathe spray. Allow surfaces to remain wet for a period of 10 minutes. Ventilate buildings and other closed spaces. Do not use equipment until treatment has been absorbed, set or dried. Change cloth, sponge or towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily or when use solution becomes visibly soiled.

TO CONTROL THE GROWTH OF MOLD AND MILDEW ON LARGE INFLATABLE NON-POROUS PLASTIC AND RUBBER STRUCTURES: For use on nonporous (inanimate) (environmental) surfaces such as animals, promotional items, moonwalks, slides, obstacle course play and exercise equipment. Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate (nonporous (inanimate) (environmental)) surfaces with a use solution of 2 ounces of this product per (one) (1) gallon of water (703 ppm active) (or equivalent dilution). Apply by cloth, sponge, mop, brush, auto scrubber or mechanical spray device ((hand pump) coarse pump or trigger spray device). For spray applications, spray 6-8 inches from surface. Do not breathe spray. Allow surfaces to remain wet for a period of 10 minutes. Ventilate buildings and other closed spaces. Do not use equipment until treatment has been absorbed, set or dried. Change cloth, sponge or towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily or when use solution becomes visibly soiled.

HUMIDIFIER BACTERIA/ALGAE TREATMENT: Formulated for use in portable (evaporative) humidifiers. Thoroughly clean the hard non-porous (inanimate) (environmental) surfaces of the water tank and filters before each heating season, or sooner if necessary. For every gallon of water in the humidifier tank, add 2 ounces (of this product (or equivalent use dilution)). When you refill the tank, add ½ ounce of this product for every 2 gallons of water added in the tank (or equivalent use dilution). Wipe up excess liquid. Allow to air dry.

Not for use in heat vaporizing or atomizing type vaporizer humidifiers
